NORTHEAST TEXAS PUBLIC HEALTH DISTRICT

## "Clear the Air" Smoke Free Recognition Program

The Northeast Texas Public Health District (NET Health) thanks you for joining the "Clear the Air" Smoke Free Recognition Program. Your business can place the NET Health "Clear The Air" window sticker upon your main entrance and demonstrate your commitment to employee health and customer safety as a smoke-free business.

The Clear the Air Smoke Free Recognition Program includes a toolkit that provides free resources available for employers and business owners. Contained within the toolkit are table tents, educational Facts Sheets and QuitLine support cards that allow current tobacco users to request assistance with quitting tobacco products.

NET Health can provide additional support to your employees and customers. You may request a free peelable "Clear The Air" window sticker and obtain additional assistance with tobacco-free worksite programs by gaining direct contact with Mr. Terrence Ates, the NET Health assistant director of community outreach.

Thank you for supporting our local communities to "Clear The Air" . . .

Terrence Ates  
Assistant Director of Community Outreach  
Northeast Texas Public Health District (NET Health)
