

**NET Health operates the Tyler immunization clinic at 815 N. Broadway.  
Necessary immunizations will require that parents remember the following:**

- ❖ Children who are on Medicaid and CHIP will need their parents to present their cards at the time of service and there is no charge for the vaccine. Those who do not have any form of insurance will be assessed a \$10.00 administration fee per vaccine at the time of service. **This payment can only be made in the form of a check or cash.**
- ❖ We are unable to give the Texas Vaccines For Children (TVFC) vaccines to insured children; however, if they fall into the category of 'underinsured', then we would be able to vaccinate them. The parent will need to contact our office **BEFORE** the event to get their insurance verified. **We will not verify insurance at the time of service.**
- ❖ We carry private stock vaccines that can be given to children with insurance: Tdap, MCV4, Varicella, MMR and Hepatitis B. The insurance that we are able to file on is Blue Cross Blue Shield, Cigna and United Health Care. If the child possesses any other insurance company, then we would not be able to file, but the child can receive the vaccine for Tdap (\$50.00), MCV4 (\$120.00), Varicella (\$120.00), MMR (\$70.00) and Hepatitis B (\$80.00).

**To receive TVFC immunizations, you must meet the following eligibility criteria:**

- a.) Is enrolled in Medicaid, or
- b.) Does not have health insurance (Uninsured), or
- c.) Is an American Indian, or
- d.) Is an Alaskan Native, or
- e.) Is a patient who receives benefits from Children's Health Insurance Plan (CHIP), or
- f.) Is underinsured, which can be determined if the child:
  - a. has commercial (private) health insurance, but coverage does not include vaccines
  - b. insurance covers only selected vaccines (TVFC-eligible for non-covered vaccines only)
  - c. insurance caps vaccine coverage at a certain amount. Once that coverage amount is reached, the child is categorized as underinsured.
